

ODP 0-1284  
25 September 1980

MEMORANDUM FOR: Deputy Director for Administration

FROM:

Acting Director of Data Processing

SUBJECT: ODP Report for Week Ending 24 September 1980

Briefing for D/ODP and D/OS

DD/P/ODP, and ISSG/OS, briefed the Directors of Data Processing and Security on accomplishments and current and future efforts to enhance the security of CIA information systems. Time did not permit C/BSB/SPD/ODP, to identify additional areas of concern that require joint study by ODP and OS. His presentation has been scheduled for October.

Support to DCI/OGC

WORDP (Word Processing Monitoring Function) We briefed DCI/OGC and DCI/AO representatives on the status and preliminary findings of our OGC survey on 18 September 1980. We recommended the OGC personnel become familiar with the NEI System 3000 word processing system and are in the process of arranging a vendor demonstration.

Support to Office of Security

4C (Community-wide Computer Assisted Compartmentation Control System) The 4C project leader met with staff personnel from the Office of Communications and from DIA to discuss plans for 4C communications. The DIA personnel had prepared a complete network diagram for service to all presently defined Phase I network DoD 4C users, including equipment requirements. The DIA offered to perform installation and maintenance for this network, and provided cost estimates. A memorandum of agreement is being prepared by OC to formalize this division of responsibilities for 4C communications.

STATINTL  
O/D/ODP Acting Director of Data Processing
